

ANDREA VELLA

PROFILE

Recently graduated student with good communication skills and efficient time management. Aiming to continue gaining work experience in an IT work environment, and developing my skills.

WORK EXPERIENCE

Junior Software Developer, Cleverbit Software

July - September 2021
July - September 2022

Originally through the Student Placement Programme, I worked at Cleverbit Software over the summers of 2021 and 2022, where I worked as a Junior Software Developer.

Summer 2021:

- Complete multiple online development courses on Pluralsight, with a focus on C#, MVC framework, and unit testing
- Developed unit tests for their website's features and services using C#.
- Utilised services such as Postman and SQL Server Management Studio (SSMS).
- Worked under a supervisor, improving both team collaboration and individual work skills

Summer 2022:

- Researched and gathered requirements for different tasks, followed by implementation when required, for mainly backend development, with brief frontend development using react
- Conducted feasibility research for potential process implementations.
- Implemented minor automation features using C#.
- Continued working under supervision, which further developed both technical and team collaboration skills

Electrician Assistant

September 2023-
May 2024

- Assisted in the installation of electrical and lighting components in construction projects.
- Involved in the wiring process of buildings
- Improved discipline due to early start times and maintaining productivity in uncomfortable weather
- Improved ability to learn and adapt quickly to a given task, working collaboratively under a supervisor on unfamiliar tasks.

Voluntary Work

Summer 2019

Volunteered at Saint Catherine's Home as part of the SRP program at St. Aloysius Sixth Form. My colleague and I engaged with the elderly residents to keep them company. This experience improved my patience and communication skills.

SKILLS

- Works well within a team
- Eager Learner
- Quick Learner
- C#
- ASP.NET MVC

LANGUAGES

- English
- Maltese

HOBBIES

- Sports (Basketball)

EDUCATION

Bachelor of Science in Information Tech (Hons)(Software Development), University of Malta

2020-2023

Graduated with Second Class Honours (Upper Division)

Saint Aloysius Sixth Form

2018-2020

Tertiary Education

Advanced Level Grades:

- Pure Mathematics: B, Computing: A

Intermediate Level Grades:

English: C, Marketing: C, Accounting: B Systems of Knowledge: B

Sixth form at St. Aloysius College was a positive experience that allowed me to improve academically while also developing real-life skills. Through participation in extracurricular activities like the annual Soiree and SAC Fest, I further developed my teamwork and dedication. These activities conveyed the importance of collaboration and time management, improving my ability to balance academic responsibilities with other commitments effectively.

During this period, I also participated in the European Conference on Educational Robotics (ECER) 2019 as part of a team tasked with building a robot that would satisfy the conditions of the competition. As a builder I was responsible for constructing various parts required, alongside another builder. This experience taught me how to integrate and work effectively within a group setting.
